THE MUNICIPALITY OF BAČKA PALANKA

We do not feel out of place
In Bačka Palanka

Where young people recharge and the older ones get revitalized. At Tikvara one can row, in Karadjordjevo ride, as one's choice may be.

Karadjordjevo Stud Farm
There is a stud farm in Karadjordjevo which has a long tradition in breeding Nonius horses.
Within the stud farm there is also the Equestrian Museum with many exhibits such as trophies, goblets, plaques and photographs. Particularly interesting are the exhibits of sleds and carriages dating from the Tito period. A curiosity in the museum can be seen in the book of impressions from 1924, which makes it one of the oldest exhibits of its kind in our country.
It is possible to organize individual and group visits to the stud farm, the museum and the hippodrome, riding ponies, riding a carriage on a stud farm or in the hunting area, as well as take riding lessons.
All visits must be announced a few days in advance.
In the immediate vicinity of Bačka Palanka there is the protected area of the Special Nature Reserve called Bagremara with the Red Cross resort and the Villa Grande restaurant.

The Red Cross Resort
It is suitable for hikers, cyclists, but also for organizing various seminars, educational workshops, camps and outdoor classes, since it has a pavilion of about 50 beds, a congress hall, a library, an outdoor amphitheater, a summer garden and a children's playground. With its surroundings, the Red Cross Resort is a great location for organizing the Festival of Ecological Theater for Children and Young People held in the second half of August.
The Villa Grande is located where the bustle of the city stops and the acacia forest begins. With an exclusive restaurant, accommodation, children's playground, walking paths, outdoor tennis courts, volleyball, football and basketball, it is ideal for family weekend tourism.
The Carlsberg Beer Museum

The museum is modeled after the Copenhagen Beer Museum, but is much smaller. The building of the former brewery upstairs houses a collection of 400 exhibits. In addition to a stroll through the history of beer, all lovers of this drink can enjoy a tasting of different brands of Carlsberg Serbia. If you are interested in visiting the Beer Museum, it is necessary to announce your visit in advance.

Activities on the Danube

The Danube in Bačka Palanka is the most important natural resource and certainly the most attractive part of the city. With its landscaped beaches, attractive coastal area and landscaped grounds, it attracts mostly young people. In addition to sports and recreation, there are other possibilities offered during the summer through various events on the beach: the Danube Ball, tournaments in volleyball and beach handball, kayaking...

There are also several csarda restaurants along the coast that offer fish specialties making Bačka Palanka known for them.

The Tikvara Nature Park

In Bačka Palanka, along the Danube and the river bank, there lies the Tikvara, a nature park with category III protection. The special value of this park is the natural monument of “Artificial Stands of Swamp Cypress” which is an autochthonous species in the territory of Serbia.

The nature park is dominated by the lake of the same name. In its immediate vicinity there are outdoor sports grounds, the Tikvara sports hall, kayak club, hiking and biking trails, sandy beach with landscaped swimming pool and several csarda restaurants known for their fish specialties. The Tikvara Nature park is a favorite place for rest and recreation and it has potential for the development of nautical tourism. Also, due to the large number of nesting birds in the park, it is possible to observe them. There is great potential for the development of the popular sport of birdwatching.

Lake Bager

In addition to the natural Lake Tikvara, there is an artificial Lake Bager with a beach, mooring and Kaloš csarda in Backa Palanka. The lake attracts fishermen and hikers and is known for hosting the Golden Kettle (Zlatni kotlic) event. In 2002, the For Guinness fish stew in a kettle was prepared at this location, and was enjoyed by over 12,000 visitors from Serbia and abroad. All visitors to Lake Bager can also see an exhibit of this 2.40 m diameter kettle, 1.50 m deep and 4,160 liters in volume.

Events:

“The Danube Ball” – July

Traditional event that lasts for three days and is held at the Tikvara Sports and Recre-
In addition to daily activities aimed at the youngest visitors such as fishing and swimming schools, various sports competitions, this event also organizes a rich music program with popular local performers of different genres, as well as various performances for children and adults.

“Etno Sor” - July

A one-day event with various associations participating with their handicraft products, accompanied by a cultural and entertainment program usually held in the city center.

Through the municipality of Bačka Palanka, 12 local cycling routes are created, adapted to different categories of cyclists. These routes are actually a natural combination of the Danube route - Euro Velo 6, the Croatian and Mt. Fruska Gora networks. The routes are of different lengths and are generally a combination of soil and asphalt. There is signage for each, welcome signs, bicycle traffic counter with a display at Tikvara, two parking places for cyclists, and a detailed map as a guide for routes through the municipality of Bačka Palanka.

*You are on a trip to Irig*

Mountainous region – high standards. Sports fields, the adrenalin park, snowboard, zip line ... If we understood each other.

**Sports fields**

Regardless of your age, responsibilities, and current state of health, it is always the right time to start living healthier, eating and exercising properly.

The Premier Aqua Hotel has expanded its offer by building a sports complex that is tailored to meet the needs of both top athletes and amateurs, and is just a 5-minute walk from the hotel.

In this area of about 2 hectares there are two tennis courts, volleyball court, basketball court, and the construction of a squash court and fitness center is in the final stage. The grounds are built to the highest standards. Tennis courts have a hard surface, known as the Deco Turf, and this is the reason why US Open matches are held on this surface.

After a tiring match, visitors can get refreshments at the Sport Cafe overlooking the wooded landscapes.

THE MUNICIPALITY OF PLANDIŠTE

In Plandište, let loose  
Relax, listen to reggae

In the southern Banat villages, rock and roll is taken seriously. The spirit of reggae guru Bob Marley shines through Banatski Sokolac during the two days of August. From his statue in the schoolyard.

“Rockvillage Music Festival” – August  
A two-day music festival, traditionally organized since 2005, every August, in the heart of Banatski Sokolac – a small village in the South Banat district, Vojvodina.
The heart of this village is the courtyard of the Jovan Sterija Popovic Elementary, which, during the festival, turns into a real metropolis that receives more and more visitors from year to year.

Rockvillage is a festival that mostly popularizes rock, reggae, blues as well as funk music, but it does not shy from electronic sound.

At Rockvillage you will always be able to hear a variety of performers. From the most famous ones, to those much less known, who, to our great pleasure, make their first musical steps.

What makes Rockvillage a unique festival in Serbia is, above all, the fact that every year, without exception, entry is free during both days of the festival.

Also, Rockvillage is always talked about as a festival, during which a statue of Bob Marley was erected in 2008, the first in Europe, right in the schoolyard where the festival takes place.

The camp organized within the festival is also free of charge, with regular groups of bikers every year.

THE CITY OF VRŠAC

You are a dear guest in Vršac
With various activities taking place

Due to the landscape atypical (extreme) for the plain that surrounds it, Vršac is a paradise for extreme sports. And that is Vojvodina.

Escape Room
It is one of the most popular real-life games, in which a group of 2 to 5 members work together to solve all the puzzles and pitfalls, and in less than 60 minutes find a way out of the mysterious room. Getting out of the room is not your only task. It is about discovering the truth about the disappearance of a person from Vrsac, who has been missing since March 1971. This is also the first theme of the escape room in Vrsac. There are no language barriers to successful task completion, and no prior knowledge is required. All that is needed is the power of observation, creativity, logical reasoning and most of all - team spirit. The Escape Room is for anyone looking for a new and unique experience and an hour of top-notch fun! If game participants get stuck in a task somewhere, they have the right to ask for help every 10 minutes.
