NOVI SAD ON FOOT

Leaning on the banks of the Danube, the capital of the Autonomous Province of Vojvodina, Novi Sad, is recognizable by a mixture of many cultures. First acquaintance with this beautiful city is best done on foot. Start, logically, from the pedestrian zone. In the old town you cannot miss the Trg Slobode square, City Hall, Name of Mary Catholic Church, Monument to Svetozar Miletic, Vojvodina Hotel, Zmaj Jova’s Street and Zmaj Jova’s Gymnasium, Bishop’s Palace, the Danube and the Danube Park, the Museum of Vojvodina. Each of these sites, besides attractive attire worn, has an interesting story. Each building is a novel. Recommendation to your feet also - white Banovina, the Galerijski Trg square and the building of Matica Srpska through the nightlife queen Laze Teleckog street, the Trifkovicev Trg square and St Nicholas churchyard.

NOVI SAD ON TWO WHEELS

To continue the tour it is wise to choose a bicycle, just as in Amsterdam, pedal through winding streets of Podbara to Almska church. Then, across the street to get to Temerinska street, to arrive at the Ruthenian Greek Catholic Church, the Slovak Evangelical Church, the Hungarian Theatre, the Hungarian Reformed Church, to the Synagogue. Finally, over the Trg Mladenaca square of the newlyweds, ride away to Bulevar Oslobodjenja boulevard, Vojvodina football stadium, SPENS sports and business centre, university campus, Liman neighbourhood, directly at the Danube quay towards the Strand.

NOVI SAD ON THE WATER

Here again tread on your feet because you are in for a walk, why not a swim indeed, at the best equipped beach on the entire Danube River. A little further on, a boat-catamaran waits. In no time you are already on board and I find yourself rating the beauty of Novi Sad from the river. Sailing under the bridges, net to Sremska Kamenica. Petrovaradin Fortress you arrive to the Gate of Novi Sad, where, in the middle of the Danube, you end the day watching a romantic sunset. If you did not have enough of swimming in the Danube, visit the Novi Sad surroundings, select the Petroland Aqua Park in Backi Petrovac or thermal pools in Temerin.

NOVI SAD FROM THE FORTRESS

The next day, on foot, by bicycle or motor vehicle, regardless, cross the Duga bridge to the Syrmia side and through almost undisturbed network of narrow baroque streets climb to Petrovaradin Fortress. This masterpiece of military architecture of the eighteenth century, the Gibraltar of the Danube, surrounded by walls with kilometres of underground corridors, is also the largest permanent arts centre in the country. Dozens of art studios, including Studio 61, an art workshop for unique tapestries, the Novi Sad City Museum, Planetarium and the location of one of the best European music festivals - Exit. Novi Sad is best seen from the terrace next to the clock with reverse hands, which is the unofficial souvenir of the city.
NOVI SAD, THEN CENEJ

You’ll have enough time to visit Cenej, a grape picking festival in Sremski Karlovci, near Novi Sad, the guardians of authentic Vojvodina farm tradition. On one of a hundred farms in Cenej, enjoy horseback riding, carriage rides, or, in winter, sleigh, exercise, golf, archery or just – a walk. Only hunger can make you drop activities, and in some of the farms, maybe Bika’s or 137, take part, perhaps in preparation, and certainly in the consumption of Vojvodina cuisine specialties. Only yours and no one else’s responsibility is to conquer the gibanica cheese pie, veggie pie, homemade sausage, lamb with rosemary, goose liver, rolled veal, veal medallions in cream, stuffed zucchini, rindfleisch beef soup, roast in cream, turkey with dumplings, strudel with poppy seeds and walnuts, pumpkin pie … Lala’s good nature is the result of satiety.

KARLOVCI IN SYRMIA

The town of Sremski Karlovci is an open-air museum. It is located about ten kilometres from Novi Sad and the whole 70 km from Belgrade as well as, approximately, from the international airport. The Danube allows guests arriving by waterways too. Also, the popular train called Romance with restored cars from the thirties of the last century bring passengers to the former cultural, spiritual and educational centre of the Serbs Tour of the Baroque centre of Sremski Karlovci is a prime cultural experience. The Cathedral Church of 1762, dedicated to St. Nicholas; Patriarch’s Palace, the most impressive building in Vojvodina of the nineteenth century, is today the seat of the Bishop of Srem; the oldest Serbian grammar school – Karlovacka, was founded in 1791, and Four Lions Fountain – built in 1799 in honour of the completion of water supply; oldest Serbian Karlovac Seminar, 1749; Stefaneum Palace built in 1903 as students’ dormitory. A little further up the hill – Peace Chapel built in 1817, in the place of signing of the Karlovac Peace in 1699 between the Christian Alliance and Turkey.

After mastering the lessons of history, you are ready to move on to easier topics and visit the Museum of Wine and then some of the many wine cellars and gain new knowledge about the history, production and types of local grape varieties. This, inevitably, leads to tasting “the drink of the gods” (we recommend Bermet) secure under the arches of a few hundred years old Karlovac vaults. There is also a museum of honey which will introduce you to the way of life by using bee products.

Fruska Gora is the place of a large number of rare plant and animal species, a place where you can enjoy picking orchids and a place with pleasant atmosphere of a mountain lodge or household, where tasting wine and having a bite, you can spend a weekend away from the big city lights.

Accompanied by a local guide, waiting for you is a variety of activities from healthy hiking trails through beech forest, through the riding school to visiting monasteries. There are viewpoints, lakes and waterfalls to see and the villages of Syrmia. Walks can be short, about an hour or more, up to 3 hours, depending on the wishes and possibilities.

It is possible to take a look at Syrmia and Fruska Gora from the water too, from an ancient ship Saika restored for tourism. From Novi Sad, after an hour of sailing, you get to Sremski Karlovci. Water way to Banostar takes somewhat longer.

BANOSTAR – THE TSAR, MARADIK – THE CHIC

The village Banostar can reached by ferry which runs from Backa side. There was a fortress of the Roman Empire, then a Hungarian fortress, then Samuil’s empire, and in 1526 the Turks arrived. Take a look at the exhibition of various artefacts of dexterous Banostor women, with Syrmian meal (meat with homemade brandy, mint juice and carob brownies). Be sure to visit the Orthodox Cathedral of Saint George, which is among the five oldest churches in Syrmia. For lunch we recommend “whipped barbecue” Syrmia style. Maradik village has authentic ethnic heritage house with Vojvodina exhibits over half a century old.

TO IRIG WITH A JIG

Mountain day at Fruska Gora should be started in Irig, the information centre with the collection of the natural, cultural and historical values of the national park Fruska Gora. And there in the vicinity is the Mackov Podrum cellar, and the Wine House of Kovacevic.

When you go from Irig to Ruma, to the famous fair, you will pass by a unique monument to the victory over the plague. It was built by long time ago spared people of Ruma.

INNER PEACE MASTERY AT THE MONASTERY

The Third or North Holy Mountain, the Serbian Medieval Atos, this is what Fruska Gora has also been called. If you want to visit all the Fruska Gora monasteries, one weekend you most likely will not be enough. But it’s worth a try. To start, the monasteries of Old and NewHopovo, founded in the early sixteenth century, for a time the seat of the bishop. Then Grgeteg from the same century, certainly one of the better preserved medieval monasteries of the area. Then, through Velika Remeta (1534) with the church dedicated to Saint Demetrius, to Mala Remeta monastery. It is a nunnery mentioned in Turkish writings as early as 1546. Jazak monastery was built in the mid-eighteenth century and is one of the most beautiful architectural monuments on Fruska Gora. The monastery of Krusedol is not to be missed as the best preserved and most famous monastery in Fruska Gora. This endowment of the last Serbian despot, the Brankovic, is a grave site of King Milan Obrenovic and Patriarch Arsenius III Carnovac. Rakovac monastery, founded in the late fifteenth century, is one of the most beautiful monasteries of Old and New Hopovo, founded in the early sixteenth century and is one of the most beautiful architectural monuments on Fruska Gora. The oldest mountain monasteries, but it is this is what Fruska Gora has also

NO TIME TO SLEEP, GET READY FOR SYRMIA BOUND TRIP

The beauty of Syrmia is fit for a daytrip. That one day you can spend in one place, or to visit a few.

ROAD TRIP IN A JEEP

Here’s an idea for a tour by jeep in the mountains: along the Danube, through Sremski Karlovci over Strazilovo, on forest road, to, say, Grgeteg monastery, to the paleontological discovery of the Pannonian Sea coast. Over the hills of Fruska Gora passing by the famous Ubavac spring through orchards, vineyards, valleys, perhaps to Krusedol. In return for Cortanovci Kazaria spring and excavated Roman city of Castrum Herkulus.

ROMAN MITROVICA – A MOVIE SCRIPT IN THE MAKING

To begin with, of course, Sirmium – Sremska Mitrovica as one of the most important cities of the Roman Empire from the second to the fourth century BC. The archaeological site of global importance show you archaeological remains of the system of roads, aqueducts, military forts, royal palaces, baths, theatre, hippodrome … Later, strengthening the influence of Christians and became their centre as evidenced by the remains of the Christian basilica in the city centre. Pagan tribes destroyed the centre of the Roman province of Pannonia in the late fourth century, and today Sremska Mitrovica, under the streets and squares, hides the greatness and importance of the Roman Sirmium. After the history lesson on the Roman Empire, we recommend going to the nearby Ruma to the fair.

A visitor will sail on a boat, will rent a boat; will visit a donkey farm… In front of the reserve, you will find a side by side, monuments to Mangulica piglet and Pulin the dog, as an expression of respect for the animals that men in Vojvodina leaned on for centuries. On the road connecting the Danube with the Tisa region of Vojvodina, following the flow of the river Krivaja just before it joins the Great Backa Canal, you will “bump into” the town of Srbobran. The town was formerly called Szentamas, the Croats call it Staint Tomo, and a German will say Tomasberg. It was named after the symbolic name for the fortification ditch — fortress from the mid-19th century. The people of the Ukrainian city of Novomyrgorod hold Srbobran in high esteem as the Szentamasians are the people of their sister-city. The Srbobranians bestow the annual “Lenka’s Ring” award for “the most beautiful verses in Serbian in the previous year”. Check to see if by any chance you happen to be this year’s laureate. AT THE TITEL HILL YOU’LL FIND WHATEVER YOU HAVE IN MIND

The town of Titel lies in the south-eastern part of Bačka, the popular Sajkaš part, where the Begej flows into the Tisa, above the villages of Vilovo, Gardinovci, Lok, Mošorin and Sajkaš. They say it was named after the Roman Emperor Titus. When visiting the powder magazine and barracks of the Sajkaš Battalion, one senses the spirit of Sajkaš warriors. In the 18th century, their units used to fast rowing boars with small sails – sajka, to disturb the Turkish military formations. The whole area was named Sajkaška after them. Looking at the city and the surrounding area from above, from the Titel Hill, the inspiration hits you, as it once did Stevan Pesic, to depict this area in on your own words, in an authentic and literary way. Take a walk in Mošorin, and imagine Svetozar Miletić and Isidora Sekulić as a boy and a girl, born just there. Titel is the birthplace of Mileva Maric Einstein and “the Serbian James Bond” – Dušan Popov. Instead of all this, perhaps you will find it sufficient to know that the area of Titel municipality is rich in hunting and fishing grounds.

BECEJ BY DAY I DESIRE, BECEJ BY NIGHT I EVEN MORE REQUIRE

Sailing through Vojvodina, more precisely, navigating the river Tisa (or some of the surrounding artificial canals), you cannot miss the port of Becej, a thousand year old city which grew out of the fortress on the Tisa river island. The municipality of the same name and with population of over 20,000 is an economic, social and cultural center of the Tisa region (Potišje). It flows cozily through typical flatland abundance: fertile soil, gas from the ground, underground healing waters and underground navigable waterways. In the town itself, as usual in Vojvodina, you have the opportunity to visit the Catholic and the Orthodox churches. The Serbian Orthodox Church of St. George is specific for its three towers and the iconostasis by Uros Predic. While already there, do visit the century-old Becej spa. You can quench your thirst for culture at the National Library, the City Museum, the Historical Archive, or the Cultural Center. While finishing your best watercolor painting at the Art Colony, you are surrounded by the dance and song of “Đido” folk ensemble. Not far from Becej, there is a castle named Fantast which belonged to the “Rockefellers” of Vojvodina, the Dunđerski family, now converted into a hotel and restaurant. Adjacent to the castle, there is also a chapel with a majestic iconostasis by the already mentioned Mr. Predic, and the horse farm used by tourists. At the exit from – or entrance to Becej, depending on the direction the road takes you, be sure to make a stop at the sluice where the Great Bačka Canal flows into the Tisa. The dam, which is said to be from the Eiffel Workshop, in the period of its creation (late nineteenth century), was one of the most modern in the world. And when the night descends, the people in Becej will tell you with melancholy about the Becej beer and “the Paganini of tamburitsa” – Janika Balasz, who grew up in Becej.

IN ZABALJ, TOURISM GETS A MOMENTUM

The city and the municipality of Zabalj (Josef-dorf, the Germans would say) is not to be missed on the road from Novi Sad to Zrenjanin, and vice versa. At the attractive complex of the first golf course in our country, in the shadow of a majestic monument to World War II raid victims, you can spend all day trying to put the ball into the ninth hole, with the help of a club (golf gear, that is). After dark, provided it’s mid-June, we recommend enjoying rock inclined bands at the Frogville Festival.
KASTEL CASTLE OF ECKA, THE ENVY OF THE VIENNESE

Kastel castle in Ecka, is surrounded by a beautiful park. The present hotel features authentic atmosphere of aristocratic past. Formerly owned by the Transylvanian Count Lazar Lukac, it preserves the story of the tragic fate of Mihajlo Lukac, the fratricide, the strange beliefs about the connection of Vlad Tepes and Lukac, Attila the Hun, and, finally, the great composer Franz Liszt. After a break in the castle, and on the way home, visit the nearby Orthodox church of St. Nicholas, the oldest in the area, and the Catholic church from the nineteenth century, with three major icons by the Dutch artist Van der Wien.
CLIMATE PARADISEAN AROUND ZRENJANIN

Going to the Banat, towards Zrenjanin, from Backa, you are seen off by a top notch golf course near Zabaj, the first one in the country. The capital of Banat, Zrenjanin, is the third largest in our country. The city in which a new optimism pervades. Here at the main square there is the National Museum, the Theatre, the Monument to King Peter I, Zeleno Zvono pub, the City Hall ... This city bridges the Spaniards once called New Barcelona. And this is where the four horses from the popular song crossed the thick river of Begej.

CARJA BARA RESERVE, YOUR ATTENTION DESERVED

Carska Bara, nature reserve, is home to 250 species of birds. It is the residue of the floodplain of downstream Begej river. It is a striking mosaic of ponds, marshes, forests, meadows and steppes, which are intersected by rivers, canals and dikes. All that is best experienced from the ship.

SLANO KOPOVO RESERVE, A PHENOMENON PRESERVED

Opposite Becej the old and rich Fantast castle, there is a Nov Becej. In the surrounding area there are excellent conditions for hunting and fishing tourism. Fishermen and hunters stay at the Tisa Flower Hotel located along the river Tisa. Special tourist attractions are Slano Kopoivo natural reserve of rare birds, plants and animals, and the unique phenomenon of the blooming of the Tisa, with its unique phenomenon -Tisa flower. Slano Kopoivo is one of the last surviving ponds of Vojvodina salt marshes.

EVERYBODY’S HEART TICS FOR ONE KIKA THE MAMMOTH PIC

Kikinda offers its National Museum, then Archives, and the only dry mill in the territory of Vojvodina, and other valuable buildings from the first half of the nineteenth century. There are also monuments to the fighters of Kikinda partisan detachments and to a revolutionary and a poet, Jovan Popovic. Kikinda rejoice for having a replica of a mammoth, the popular Kika, at the mentioned National Museum in the original size. Since 1982, the city has been the host to Terra - International Symposium of Terracotta Sculpture. Its collection is a unique collection of modern terracotta sculptures in the world.

FROM MOKRIN I CHOSE A SON OF A GOOSE

The village of Mokrin from the imagination of the authors Miroslav Antic and Rasa Popov, known for its traditional goose fight fest. In it, the feathered gladiators compete in three categories - seniors, two year olds, and juniors.
Tour of Vrsac, a beautiful wine town on the border with Romania begins by a walk at the centre where you will see the Roman Catholic Cathedral of St. Gerhard, the Serbian Orthodox Church, Concordia, Sterija’s house, the Pharmacy on the steps, the oldest pharmacy in the Balkans with a permanent display of paintings of Paja Jovanovic, and then the Patriarch’s Palace, and the magnificent Millenium sports hall. Further on, the road will take you to the Vrsac Mountains. It can be taken on foot or by bicycle. At the top of the hill is the fourteenth century tower, now an attractive vista point overlooking Banat area and the famous city of Vrsac vineyards. Down in Vrsac vineyards, wine production of this region will be shared with you by the knights of Banat wine order of St. Theodore personally. Tasting implied.
**PURE GOLD SANDS OF DELIBLATO**

Deliblato Sands. The European Sahara. The last sandy terrain in Europe. This is a unique natural phenomenon declared a nature reserve. The tour includes visits to Banatska Palanka, Deliblato, Devjacick Bunar... Mali Pesak is a preserved steppe habitat where there is still traditional cattle breeding. You can swim in the pools, sail on a boat on the lake, enjoy good food; go to where the wolves come regularly, on foot or by an all-terrain vehicle. Sands is in the opinion of European experts one of the best places for bird watching on the Danube. Dubrovacki Rit marsh or sunk island Cibukija, are attractive habitats of migratory birds.

**SOUTH BANAT FOR BEGINNERS**

Haven’t had enough of the southern Banat? Then straight to Mesic nunnery, one of the most important monasteries of this region; Gudurica villages where Serbs, Slovenes, Macedonians, Roma, Romanians, a Turk, an old pastry chef, and a French woman in love with the climate all live together. And they all go into one Greek Catholic church and honor both the Orthodox and Catholic saints; Traditional houses in Skorenovac with objects from the past and a courtyard with fire trucks from 1891 where you can hear local singing group; Idvor village, the birthplace of the great scientist Mihajlo Pupin; Jabuka village, interesting for the coexistence of Macedonians, Serbs and 14 other nations who also all go to one church, the Romanian Orthodox one; Saška boat sail to the village of Ivanovo, boarding in Pancevo. Tour of the permanent exhibition, Ivanovo in Time, bird kennel, goats and honey farms, fishing, photographing flora and fauna.

**BELA CRKVA WATERS CATER TO ALL TASTES**

Belocrkvanska lakes (Glavno, Vracevgajsko, Saransko, Sjunkara...) are a significant source of income for the municipality of Bela Crkva. The lakes are formed by gravel mining, thus the clear blue waters and sandy beaches.

**NAIVE AS KOVACICA**

Kovacica is a place known worldwide for the school of naive painting, whose motives are often at UNICEF’s New Year’s cards. The tour includes a visit to the Babka gallery and one of the painters’ studios. Every house in this capital of naive painting looks like a space for exhibition.
